

VISITING ANALYST (M/F/D) – PRIVATE EQUITY – SOPHORA UNTERNEHMERKAPITAL

Sophora Unternehmerkapital is an independent equity investment firm with a focus on medium-sized companies in Germany, Austria and Switzerland. As a value-creating partner to entrepreneurs and management teams, Sophora provides strategic and operational know-how as well as a comprehensive network of experts and flexible capital in order to jointly discover and unlock potential. We strive to pursue thematic investments focusing on energy transition & resource availability, B-E-S-T technologies and buy-and-build strategies.

What to expect from our Visiting Analyst Program

Sophora enables you to take on the perspective of an investment professional and be a full member of the team within an exciting program. Join us to:

- Support the evaluation and execution of private equity investments
- Conduct independent research and take responsibility for workstreams
- Experience a dynamic and team-oriented working environment
- Have extensive learning and development opportunities
- Receive recognition and appreciation for achievements

What we are looking for in a candidate

Our Visiting Analyst Program is for candidates currently pursuing an undergraduate or graduate degree with a passion for businesses and finance. In particular, we are looking for individuals with the following profile:

- Entrepreneurial mindset and affinity for medium sized businesses
- Independent and structured way of working
- First professional experience in private equity, investment banking or management consulting
- Excellent academic track record at a leading university
- Fluency in German and English

Application

Sophora is an equal opportunity employer. We recognise that diversity is key to our success and strive to maintain a fair and equitable recruitment process for all applicants. If you are interested, please submit your application including your CV and references via e-mail at recruiting@sophora.de. Please also indicate your possible starting date and preferred duration.
